

Modular-Lab eazy

Cassette-based solution for routine production

Cassette Diversity

The fully automated synthesis system Modular-Lab eazy works with sterile, disposable cassettes.

The use of sterile, disposable synthesis cassettes ensures the easy handling through click'n'start technology. Just by changing the cassette the Modular-Lab eazy is ready for the next synthesis run - even if it is a different tracer or nuclide than the one the customer has labeled just before. Due to the cassettes' one-time use no reconditioning and cleaning or sanitation routine are necessary.

Cassettes are assembled under GMP-compliant clean room conditions and gamma-sterilized. All cassette parts were tested for their suitability for the specific syntheses. All materials are free of animal derived ingredients. A shelf life of 18 months can be guaranteed.

Cassettes are available for the following ^{68}Ga , ^{90}Y , ^{177}Lu applications:

| | Cassette for Modular-Lab eazy | Article No. |
|-------------------|---|----------------------|
| | Cassette for ^{68}Ga Multi-Generator-Elution | C1-GA68-MULTI |
| | Tubing set for elution of registered $^{68}\text{Ge}/^{68}\text{Ga}$ generator for GalliaPharm® | ML-EAZY-GALLIA-TUBES |
| ^{68}Ga | ^{68}Ga DOTA-peptides (acetone free pre-purification) wit CM cartridge post-purification | C0-GA-PEP |
| | ^{68}Ga labeled PSMA ^{HBED} with CM cartridge post-purification | C0-GA-PSMA11 |
| ^{90}Y | ^{90}Y labeled PSMA-617 with CM cartridge post-purification | C0-YDOTAPPSMA-CM |
| | ^{90}Y DOTA-peptides with CM cartridge post-purification | C0-YDOTAPEP-CM |
| ^{177}Lu | ^{177}Lu labeled PSMA-617 with CM cartridge post-purification | C0-LUDOTAPPSMA-CM |
| | ^{177}Lu DOTA-peptides with CM cartridge post-purification | C0-LUDOTAPEP-CM |
